

**GUIDELINES AND PROCEDURES FOR THE IMPORTATION OF UNLISTED  
VARIETIES IN TERMS OF THE PLANT IMPROVEMENT ACT, 1976 (ACT NO. 53 OF  
1976).**

***SEED CROPS***

**1. DEFINITIONS:**

Unless otherwise indicated,

“Registrar” means the Registrar of the Plant Improvement Act, 1976 (Act No 53 of 1976)

“Phytosanitary requirements” refer to the requirements of the Agricultural Pests Act, 1983 (Act No. 36 of 1983); and

“any other Act or Agreement” includes, but is not limited to the Genetically Modified Organisms Act, 1997 (Act No. 15 of 1997) and the Plant Breeders’ Rights Act, 1976 (Act no 15 of 1976)

**2. PURPOSE OF THIS DOCUMENT:**

The Plant Improvement Act stipulates in Section 26 that propagating material may only be imported if the denomination of the variety has been included in the national varietal list. Provision has however been made in Sec. 26(2) that the Registrar may allow the importation of propagating material of varieties that are not yet listed, upon application in the prescribed manner.

The Plant Improvement Act also stipulates in Section 13 that propagating material may only be sold if the denomination of the variety has been included in the national varietal list. Provision has however been made in Sec. 13(2) that the Registrar may allow sales of propagating material of varieties that are not yet listed. Authorisation to sell the imported seed for evaluation purposes is granted with the authorisation to import unlisted varieties. *Authorisation to sell seed of **locally produced seed** has to be obtained separately.*

The aim of this document is to provide guidelines and procedures within the existing legal framework for the importation and sale of propagating material of unlisted varieties for different categories according to the purpose of the import.

**3. GENERAL:**

- a) Authorisation for the import of unlisted varieties is only required for the kinds of plant indicated in **Table 1** in **Annexure 2**. If the kind of plant does not appear in the table, you do not require an authorisation. The amount of seed indicated in the table is the amount of seed per breeding ling/variety allowed to be imported.
- b) Please note that irrespective whether the kind of plant appears in the table, the import of seed of most kinds of plants is also subject to the provisions of other legislation i.e.
  - the Agricultural Pests Act, 1983 (Act No. 36 of 1983); (must **always** obtain permit)
  - the Genetically Modified Organisms Act, 1997 (Act No. 15 of 1997); (in case of GMO)
  - the Plant Breeders’ Rights Act, 1976 (Act No. 15 of 1976) (check for PBR).

**Annexure 1** contains the contact persons of the relevant legislation. It is the **responsibility of the importer** to ensure that all relevant permits and authorisations have been obtained prior to the importation of the consignment.

- c) In terms of the Plant Breeders' Rights Act, 1976 (Act No. 15 of 1976), it is **illegal for any person, except the holder of a Plant Breeder's Right or his/her agent**, to import or sell seed of a variety to which a plant breeder's right has been granted, including applications filed for plant breeders' rights. Written permission from the holder of the plant breeder's right or his/her local agent must be provided to the Registrar before any authorisation for such importations will be allowed.
- d) **Application** for the importation of seed must be submitted on the form in **Annexure 3 prior** to the intended import and a copy of the authorisation must accompany the seed at all times.
- e) Each application for the importation of unlisted varieties (maximum 10 varieties per application, except in case of breeding lines), must be accompanied by proof of payment of the prescribed fee. Payment can be made at the Department's cashier or paid directly into the following bank account:  
Bank: Standard Bank (cheque account);  
Branch: Arcadia; Branch code: 010-845;  
Account number: 011 276 487  
Account name: DAFF PIA Registrations;
- Indicate company name as reference on deposit slip.
- No authorisation will be issued if the correct fee has not been paid. In case of any doubt, please contact the Registrar's office.
- f) Importers of seed must notify the relevant inspection officials when imported consignments have arrived and present it to them at the point of entry.
- g) The quality of imported seed must comply with the requirements of the Plant Improvement Act. A laboratory test report stating the seed quality should accompany the consignment. **Dispensation shall not be granted to sell imported seed that does not comply with the seed quality requirements of the Act.**
- h) Anybody who imports seed for the purpose of selling seed, must be registered as a seed seller in terms of the Plant Improvement Act.
- i) Companies/persons who make use of the services of clearing agents, must ensure that the clearing agents are aware of the requirements to import seed, especially that authorisation is required for import of unlisted varieties.
- j) Once an authorisation has been issued, a new application must be submitted if varieties are to be added or replaced in the consignment.
- k) ***If any of the conditions set out in an authorisation are not complied with, actions may be taken against the importer in terms of the Act.***

#### **4. CATEGORIES OF IMPORTATION:**

- 4.1 *Breeding/Research*
- 4.2 *Evaluation/Experimental*
- 4.3 *Multiplication of seed for export*
- 4.4 *Production of a product for export (not seed for cultivation)*
- 4.5 *Special production of seed/grain under contract for local company*
- 4.6 *Sales of retail pre-packed seed*
- 4.7 *Re-export of seed*
- 4.8 *Importation for purposes other than cultivation*

##### **4.1. BREEDING / RESEARCH PURPOSES**

The purpose is to provide companies/institutions/persons the opportunity to import seed for breeding or other research. Seed imported for breeding or research purposes may not be sold under any circumstances and is solely for the use of the importer on his/her own premises. If seed will be distributed to other premises, this category may not be used.

Seed imported in terms of this authorisation must comply with all the requirements in terms of the other relevant legislation.

Application for authorisation must be submitted irrespective of the amount of seed per breeding line/variety that is to be imported.

- a) In case where the amount of seed per breeding line/variety does not exceed the amount specified in column A of Table 1 in Annexure 2, the number of breeding lines/varieties is not limited per application and need not be specified; only the kind of plant must be specified and the breeding lines/varieties indicated as “various lines/varieties” with total mass of the lines/varieties per kind of plant. In this case the limit is 10 kinds of plant per application.
- b) If the amount of seed per breeding line/variety exceeds the amount specified in column A of Table 1 in Annexure 2, each line/variety and the amount of seed for each has to be specified and the number of lines/varieties are limited to 10 per application.

#### 4.2. EVALUATION / EXPERIMENTAL PURPOSES:

The purpose is to provide companies/institutions/persons the opportunity to evaluate new varieties in order to be able to select the most suitable varieties for national listing.

4.2.1 Seed imported in terms of this authorisation must comply with the requirements of the Plant Improvement Act in terms of Table 4 of the Regulations as well as in terms of the other relevant legislation.

4.2.2 In the case of a private person who is not registered as a seed company, seed imported in terms of this authorisation may not be sold or distributed in any way to any other person and may only be planted on his/her own property.

4.2.3 Companies must note that the mass of seed to be imported is granted to the company and not to each branch/office of such company.

4.2.4 In the case of a person or a company who has registered premises for the selling of seed in terms of the Plant Improvement Act, 1976 (Act No. 53 of 1976), seed imported in terms of this authorisation may be supplied free of charge or sold to any other person or company, provided that such a person or company is informed that the seed is for evaluation or experimental purposes and that trial results must be available at the end of the season.

4.2.5 Comprehensive records must be kept of the names and addresses as well as of the quantities of seed that were supplied to other persons or companies, for auditing by the Registrar and must be made available to any official of the Department of Agriculture, Forestry and Fisheries upon request.

4.2.6 Unlisted varieties may only be advertised in articles reporting on cultivar trial results and/or field days and must be clearly indicated as experimental varieties, irrespective of the amount of seed imported. They remain experimental varieties until the time that they are listed and the requirements as stipulated in the authorisation have to be strictly adhered to.

4.2.7 The importer must supply the Registrar, upon request, with the results of the trials that were conducted. At the minimum, the following details (in short) must be provided:

- the name and address where the trial was conducted;
- the size of the trial and the quantity of seed used for the trial;
- how the trial was conducted;
- with which other varieties the experimental varieties were compared (comparative results);
- conclusion of the trial, e.g. comments on DUS and/or VCU testing, whether the new variety is acceptable/suitable and whether it is going to be submitted for national listing and/or plant breeders' rights.

4.2.8 The following wording must appear on all sales documents and delivery notes in clearly visible letters, as well as on a red label on each seed container:

**EXPERIMENTAL VARIETY/CULTIVAR (Minimum letter size 2,5 mm)**

**UNAUTHORISED PROPAGATION/SALES/DISSEMINATION OF SEED IS PROHIBITED (Minimum letter size 1,9 mm)**

4.2.9 The following quantities of seed per variety may be imported (Annexure 2: Table 1: Quantities of seed that may be imported):

Column A: A mass of seed (in grams) of a variety, up to the maximum mass as indicated for the kind of plant concerned, may be imported for evaluation/experimental purposes, with authorisation from the Registrar and subject to the phytosanitary and any other conditions that may be determined. Such seed may be imported for an unlimited number of times and may be indicated per kind of plant as “various lines/varieties” with total mass of the lines/varieties per kind of plant. In this case the limit is 10 kinds of plant per application;

Column B: A mass of seed (in kilograms) of a variety up to the maximum mass as indicated for the kind of plant concerned, may be imported and sold for evaluation purposes, with authorisation of the Registrar and subject to the phytosanitary and any other conditions that may be determined, once per year, for a maximum of four (4) years; and

Column C: A mass of seed (in kilograms) of a variety up to the maximum mass as indicated for the kind of plant concerned, may be imported and sold for evaluation purposes, with authorisation of the Registrar and subject to the phytosanitary and any other conditions that may be determined, once per year, for two (2) subsequent years only. **Approval for further imports and sales of similar quantities will only be considered if the importer has submitted the variety for national listing.**

**Note**: If the amount of seed indicated in Column C has to be exceeded, a good motivation has to be provided as well as trial results, if already tested in RSA. If not yet tested in RSA, the motivation must indicate why such a risk is to be taken. Co-operating producers that will plant unlisted varieties for evaluation purposes must be identified before submission of the application to import seed. Such applications will only be considered if the import application is accompanied by the application form to establish unlisted varieties in **Annex 4** with the full names and addresses of contracted producers with the amount of seed to be established at each.

4.3. MULTIPLICATION OF SEED FOR EXPORT OF PRODUCED SEED:

In the case where a person/company has entered into a contract with someone in another country for the multiplication and production of seed of an unlisted variety, an unlimited mass of seed may be imported with authorisation of the Registrar and subject to the conditions determined by him/her, which shall include the entire quantity of produced seed and that none of the produced seed may be sold in the R.S.A. under any circumstances.

4.4. PRODUCTION OF A PRODUCT (NOT SEED FOR CULTIVATION) FOR EXPORT PURPOSES:

In the case where a person/company has entered into a contract with someone in another country for the production of products (e.g. fruit or vegetables, not propagating material) of an unlisted variety, an unlimited mass of seed of such a variety may be imported with authorisation of the Registrar and subject to the conditions determined by him/her, which shall include that none of the imported seed or produced product may be sold in the R.S.A. under any circumstances. If the importer will make use of contractors for production, such a list of names and addresses must be available to the Registrar if requested.

4.5. PRODUCTION OF SPECIAL PRODUCT (SEED/GRAIN) UNDER CONTRACT FOR LOCAL COMPANY:

In the case where a person/company has entered into a contract with a local company for the special production of seed or grain of an unlisted variety, (e.g. production of barley for malt testing or production of dry beans for processing) an unlimited mass of seed of such a variety may be imported with authorisation of the Registrar and subject to the conditions determined by him/her, which shall include that none of the imported seed may be sold in the R.S.A. to any other persons than those contracted for the production. A full motivation and names and addresses of the

contracted persons for the production have to accompany the application (form in **Annex 4** may be used).

4.6. SALE OF RETAIL PRE-PACKED SEED

Seed of unlisted varieties may be imported with authorisation from the Registrar and sold in retail pre-packed packets subject to the conditions determined by the Registrar. These packets are exempted from the wording “experimental variety”.

The amount of seed imported per year per variety may not exceed the amount specified in column D of Table 1 of Annexure 2 and the amount of seed per pre-packed packet may not exceed that specified in column E of Table 1.

A seed sample as indicated in the authorisation and short description of the variety must be submitted to the Registrar for each variety for which the amount of column D is imported for the first time, for control purposes. When the Col. D amount of seed is split into different consignments with different authorisations, the sample should be submitted when the last consignment is imported that concludes the full amount for that year.

An importer, who wishes to sell pre-packed seed from abroad, must be registered as a pre-packer of seed as well as a seed seller and must label the packets according to the requirements of the Act.

4.7. RE-EXPORT OF SEED (WHETHER RE-PACKED OR NOT):

In the case where a person/company wants to import seed for the purpose of re-export, whether direct or re-packed, an unlimited amount of seed may be imported with authorisation of the Registrar and subject to the conditions determined by him/her. Such seed may not be sold in the R.S.A. under any circumstances and the entire quantity of imported seed must be re-exported, whether re-packed or not.

4.8. IMPORT FOR PURPOSES OTHER THAN CULTIVATION:

In the case where seed is imported for purposes other than cultivation, e.g. grain for direct processing, the importer must submit a declaration (**Annex 5**). Such seed may not be sold for cultivation.

**REGISTRAR OF PLANT IMPROVEMENT**

**DATE: 02 June 2011**

**Amended: December 2011**

# IMPORT OF PLANTS OR PROPAGATING MATERIAL

## CHECKLIST FOR CLIENTS

**TO ENSURE THAT ALL RELEVANT DOCUMENTATION HAS BEEN OBTAINED BEFORE THE INTENDED IMPORTED MATERIAL ARRIVES IN SOUTH AFRICA**

Each client has the responsibility to ensure that he/she is in possession of all relevant documentation and is advised to visit the respective websites of the relevant directorates to ensure that the latest forms are used and requirements are met, or alternatively to contact the relevant officials.

	Type of permit/authorisation	Permit required		Permit obtained	
		Yes	No	Yes	No
1	GMO permit				
2	Plant Breeders' Rights permission (if importer is not owner/agent)				
3	Plant Improvement Authorisation (for unlisted varieties)				
4	Import Permit Agricultural Pests Act				

The following legislation and directorates are involved when plants, plant material and/or plant propagating material is to be imported:

1. Genetically Modified Organisms Act, 1997 (Act No. 15 of 1997): (Genetic Resources)

Ms Nompumelelo Mkhonza (NompumeleloM@daff.gov.za; 012-319 6382)

Ms Refilwe Ngoepe (RefilweN@daff.gov.za; 012-319 6165)

*Please note the respective time-lines applicable to the type of application.*

Application	No. of days
1. Importation and exportation of genetically modified organisms with general release / commodity clearance appearance	30
2. Contained use of genetically modified organisms and/or import or export permit *	120
3. Trial release of genetically modified organisms and/or import or export permit	120
4. General release of genetically modified organisms	270
5. Extension permit	90
6. Use of genetically modified organisms with commodity clearance approval	30
7. Registration of facilities	60
8. Commodity clearance of genetically modified organisms	270

2. Plant Breeders' Rights Act, 1976 (Act No. 15 of 1976): (Directorate Genetic Resources)

Marcini Govender (MarciniG@daff.gov.za; 012-319 6226) – fruit

Elna de Bruyn (ElnaDB@daff.gov.za; 012-319 6096) – seed

3. Plant Improvement Act, 1976 (Act No. 53 of 1976): (Directorate Plant Production)

*Guidance information: guidelines to import unlisted varieties and national varietal list*

Ms Joan Sadie (JoanS@daff.gov.za; 012-319 6034)

*Timeline for authorisation: 5 working days*

4. Agricultural Pests Act, 1983 (Act No. 36 of 1983): (Directorate Plant Health)

**Stellenbosch:**

Stone fruit (peach, plum, apricot, almond, cherry, nectarine), other *Prunus* spp.,  
Pome fruit (apple, pear, quince), grapevine, olive, hops, kiwifruit, strawberry, raspberry, *Ribes*  
spp (currants, etc.), *Vaccinium* (blueberry), fig, *Morus*, persimmon, walnut, Pistachia nut and  
hazelnut, *Protea*, *Leucadendron*, *Leucospermum*, *Adenanthos*, *Brunia*.

Mr Haroon Ahmed (HaroonA@daff.gov.za; 021-809 1617)

Mr Henry Allies (HenryA@daff.gov.za; 021 809 0258)

*Timeline for permit: 3 days*

**Pretoria:**

**all other crops**

Mr Jeremiah Manyuwa (JeremiahMA@daff.gov.za; 012-319 6102)

Ms Anita Snyman (AnitaSN@daff.gov.za; 012-319 6396)

Ms Shashika Maharaj (ShashikaM@daff.gov.za; 012-319 6383)

Mr Benni Kgomo (BenJK@daff.gov.za; 012-319 6130)

*Timeline for permit: 30 days*

-----

**THE FOLLOWING KINDS OF PLANT  
DO NOT NEED AN IMPORT AUTHORISATION**

THEY HAVE OPEN VARIETAL LISTS, HOWEVER THE SEED MUST STILL COMPLY WITH THE REQUIREMENTS OF THE PLANT IMPROVEMENT ACT REGARDING QUALITY AND LABELLING

	SOORT PLANT / KIND OF PLANT
1	<u>xAgrotricum</u> : Agrotriticum
2	<u>Allium porrum</u> L.: Prei/Leek
3	<u>Asparagus officinalis</u> L.: Aspersie/Asparagus
4	<u>Avena byzantina</u> : Rooiklawer/Red Oats
5	<u>Beta vulgaris</u> L. subsp. <u>vulgaris</u> : Voerbeet/Fodder Beet
6	<u>Beta vulgaris</u> L. subsp. <u>vulgaris</u> : Snybeet/Swiss Chard
7	<u>Brassica napus</u> Weikool/Forage Rape
8	<u>Brassica napus</u> var. <u>napobrassica</u> : Sweedse Raap/Swede
9	<u>Brassica oleracea</u> convar. <u>acephala</u> : Beeskool/Fodder Kale
10	<u>Brassica oleracea</u> convar. <u>acephala</u> var. <u>gongylodes</u> : Knolkool/Kohlrabi
11	<u>Brassica oleracea</u> convar. <u>oleracea</u> var. <u>gemmifera</u> : Brussel Spruite/Brussel Sprouts
12	<u>Brassica pekinensis</u> : Sjinese Kool/Chinese Cabbage
13	<u>Desmodium intortum</u> : Groenblaardesmodium/Green Leaf Desmodium
14	<u>Desmodium uncinatum</u> : Silwerblaardesmodium/Silver Leaf Desmodium
15	<u>Lactuca sativa</u> : Slaai/Lettuce
16	<u>Lespedeza cuneata</u> : Lespedeza
17	<u>Lespedeza striata</u> : Lespedeza
18	<u>Lolium rigidum</u> : Eenjarige Raaigras/Annual Ryegrass
19	<u>Lotus corniculatus</u> : Rolklawer/Birdsfoot Trefoil
20	<u>Lupinus luteus</u> : Geellupien/Yellow Lupin
21	<u>Medicago littoralis</u> : Strand Medic
22	<u>Medicago polymorpha</u> var <u>brevispina</u> : Burr Medic
23	<u>Medicago rugosa</u> : Gama Medic
24	<u>Medicago scutellata</u> : Snail Medic
25	<u>Medicago truncatula</u> : Barrel Medic
26	<u>Ornithopus compressus</u> : Geel Seradella/Yellow Serradella
27	<u>Ornithopus sativus</u> : Seradella, French Serradella
28	<u>Paspalum dilatatum</u> : Paspalum/Dallis Grass
29	<u>Pastinaca sativa</u> : Witwortel/Parsnip
30	<u>Pennisetum clandestinum</u> : Kikoejoe/Kikuyu
31	<u>Pennisetum glaucum</u> : Babala/Pearl Millet
32	<u>Petroselinum crispum</u> : Pietersielie/Parsley
33	<u>Phalaris aquatica</u> : Phalaris
34	<u>Phaseolus coccineus</u> : Nierboon/Kidney Bean
35	<u>Raphanus sativus</u> var. <u>sativus</u> : Tuinradys/Garden Radish
36	<u>Setaria sphacelata</u> Gewone Setaria/Common Setaria
37	<u>Sinapis alba</u> : Witmosterd/White Mustard
38	<u>Solanum melongena</u> var. <u>esculentum</u> : Eiervrug/Eggplant

	SOORT PLANT / KIND OF PLANT
39	<i>Sorghum</i> spp: Voersorghum/Forage Sorghum (eenjarige/annual varieties)
40	<i>Stylosanthes hamata</i> : Karibiese Stylo/Caribbean Stylo
41	<i>Trifolium fragiferum</i> : Aarbeiklawer/Strawberry Clover
42	<i>Trifolium hirtum</i> : Roosklawer/Rose Clover
43	<i>Trifolium incarnatum</i> : Inkarnaatklawer/Crimson Clover
44	<i>Trifolium resupinatum</i> : Persiese Klawer/Persian Clover
45	<i>Trifolium subterraneum</i> : Ondergrondse Klawer/Subterranean Clover
46	<i>Trifolium vesiculosum</i> : Assagaaiklawer/Arrow Leaf Clover
47	<i>Vicia faba major</i> : Boerboon/Broad Bean
48	<i>Vicia sativa</i> : Gewone Wiek/Common Vetch
49	<i>Vicia villosa</i> : Harige Wiek/Hairy Vetch
50	<i>Vigna unguiculata</i> : Akkerboon/Cowpea

**TABEL/TABLE 1: QUANTITIES OF SEED THAT MAY BE IMPORTED FOR EVALUATION OR  
RETAIL PRE-PACKED SEED:**

	SOORT/KIND	A (grams)	B (kg)	C (kg)	D (kg)	E Max seed in packet (g)
		Evaluation	Evaluation	Evaluation	Pre-packs	Pre-packs
1	<i>Allium cepa</i> L.: Ui/Onion	1000	50	200	3500	20
2	<i>Antheophora pubescens</i> : Borseltjiegas/Bottle Brush Grass	1000	20	1000		
3	<i>Arachis hypogaea</i> L.: Grondboon/Groundnut	1000	50	3000	1000	500
4	<i>Avena nuda</i> : Naakhawer/Naked Oats	500	100	1000		
5	<i>Avena sativa</i> : Hawer/Oats	500	100	1000	500	500
6	<i>Beta vulgaris</i> L.: Suikerbeet/Sugar Beet	5000	50	600		
7	<i>Beta vulgaris</i> L. subsp. <i>vulgaris</i> var. <i>conditiva</i> : Tuinbeet/Garden Beet	5000	50	600	2500	20
8	<i>Brassica napus</i> : Oliesaadraap/ Oil Seed Rape	1000	5	1000
