Research and Training Strategies for Goat Production Systems in South Africa

Proceedings of a Workshop held on

22-26 November 1998

at

Kings Lodge, Hogsback
Eastern Cape
South Africa

Edited by
E.C. Webb, P.B. Cronjé & E.F. Donkin
## CONTENTS

**Goat production in South Africa: Constraints and opportunities**

### Goat products and product quality

1. Milk production from goats for households and small-scale farmers in South Africa - Ned Donkin (Medical University of South Africa - Veterinary Faculty) 28
2. A comparison of goat growth performance in a communal and commercial farming system in the Central Eastern Cape Province, South Africa - Patrick Maseka (University of Fort Hare) 34
3. The potential of leather production from goats - Mike Ginn (Leather Industries Research Institute) 42
4. Potential of goats in the arid sweet bushveld of the Northern Province - Isak du Plessis (Mara Research Station, Department of Agriculture) 46
5. The potential utilisation of South African indigenous goats for cashmere production - Albie Braun (Textile Technology division - CSIR) 50
6. Biological constraints and opportunities for the production of meat, milk and fibre from Australian cashmere goats - Barry Norton (University of Queensland) 55

### Pasture and veld management

1. Feeding behaviour of free ranging goats - Jan Raats (University of Fort Hare) 59
2. Short term effect of fire, Boer goats and cattle on the woody component of the Sourish Mixed Bushveld in the Northern Province of South Africa - Jorrie Jordaan (Tawoomba Research Station, Department of Agriculture) 66
3. Potential of agroforestry shrubs and tree legumes in communal goat farming systems - Lindela Ndlovu (University of the North) 71
4. Impacts of browsing woody plants in African savannahs - Peter Scogings (University of Fort Hare) 76
5. Management of goats at pasture - Barry Norton (University of Queensland) 78
Goat breeding and reproduction

1. Reproductive status of goats in communal systems in South Africa - Eddie Webb (University of Pretoria).............................................................................................................. 80

2. Cervical insemination of indigenous does with frozen-thawed goat semen during the non-breeding season - Johan Terblanche (University of Pretoria - Veterinary Faculty).... 87

3. Controlled breeding for improved reproductive efficiency in goats - Johan Greyling (University of the Free State).............................................................................................................. 90

4. In vitro production of embryos for improved goat production - Theresa Arlutto (University of Pretoria - Veterinary Faculty)......................................................................................................................... 92

5. Reproduction of goats at pasture - Barrie Restall (University of Queensland)...................... 95

6. Evaluation of cashmere production in the Adelaide Boer goat flock - Joshua Roux (Cradock Experimental Station, Department of Agriculture)................................................................. 97

7. Implications of selection of goats for divergent production characteristics in environments subject to fluctuations in nutrient supply - Pierre Cronje (University of Pretoria) .......................................................................................................................................... 100

Goat research

Current goat research projects........................................................................................................... 102

Agricultural Research Council - H. Dombo.......................................................... 102
University of Fort Hare - J. Raats ................................................................. 105
Mara Research Station - I. Du Plessis ......................................................... 107
Medunsa - E.R. du Preez.................................................................................. 108
Medunsa - E.F. Donkin.................................................................................... 111
University of Pretoria - E.C. Webb................................................................. 115

SUMMARY OF ISSUES DISCUSSED AND RESEARCH PRIORITIES IDENTIFIED

see p. 118

LIST OF PARTICIPANTS ............................................................................................................. p. 123
