

## Papinos

V2.0 - 07/12/2007

### Comments and interpretation

- Where an MRL column contains no data, the particular data source either does not recognise this as an independent crop type, or no information is available.
- Where an EU harmonised value is indicated, this implies that the EU member and non-member states (Norway and Switzerland) recognise the harmonised level as the import tolerance, except where the non-member states have a higher level, in which case that value applies as an import tolerance (MRL).
- Only PHIs appearing on labels of products registered for use in South Africa are published (data obtained from ProCrop™ Professional).
- Where a PHI, but no supportive MRL value for South Africa is listed, it indicates that no MRL information was available, and *vice versa*.

### Abbreviations

EU:	European Union
MRL:	Maximum residue limit
PHI:	Pre-harvest interval
INS:	Insecticide
FUN:	Fungicide
HER:	Herbicide
GR:	Growth Regulator

### Disclaimer

Information has been gathered and presented in good faith, and represented as a status report only. No such information shall be construed as being a recommendation or advice, and users of such information acknowledge and undertake that no such information shall be used to the detriment of the programme or any parties involved therein, and shall be for the user's information only.
